Sustainable Development Policy

A European Perspective

Edited by **Michael von Hauff**, University of Kaiserslautern, Germany and **Claudia Kuhnke**, University of Kaiserslautern, Germany

Series: Routledge Studies in Sustainable Development

This book demonstrates how sustainable development can be integrated into development policy. Although sustainable development has been on the international agenda since the Rio de Janeiro conference of 1992, its integration into policy decision-making has been limited. This edited collection explores how sustainable development can play a more prominent and effective role in international development policy.
